Year: SE

Semester: IV

Subject: DT LAB

Name of Student: Lavanya Revankar

Roll No.: 48

Moodle Id: 24102005

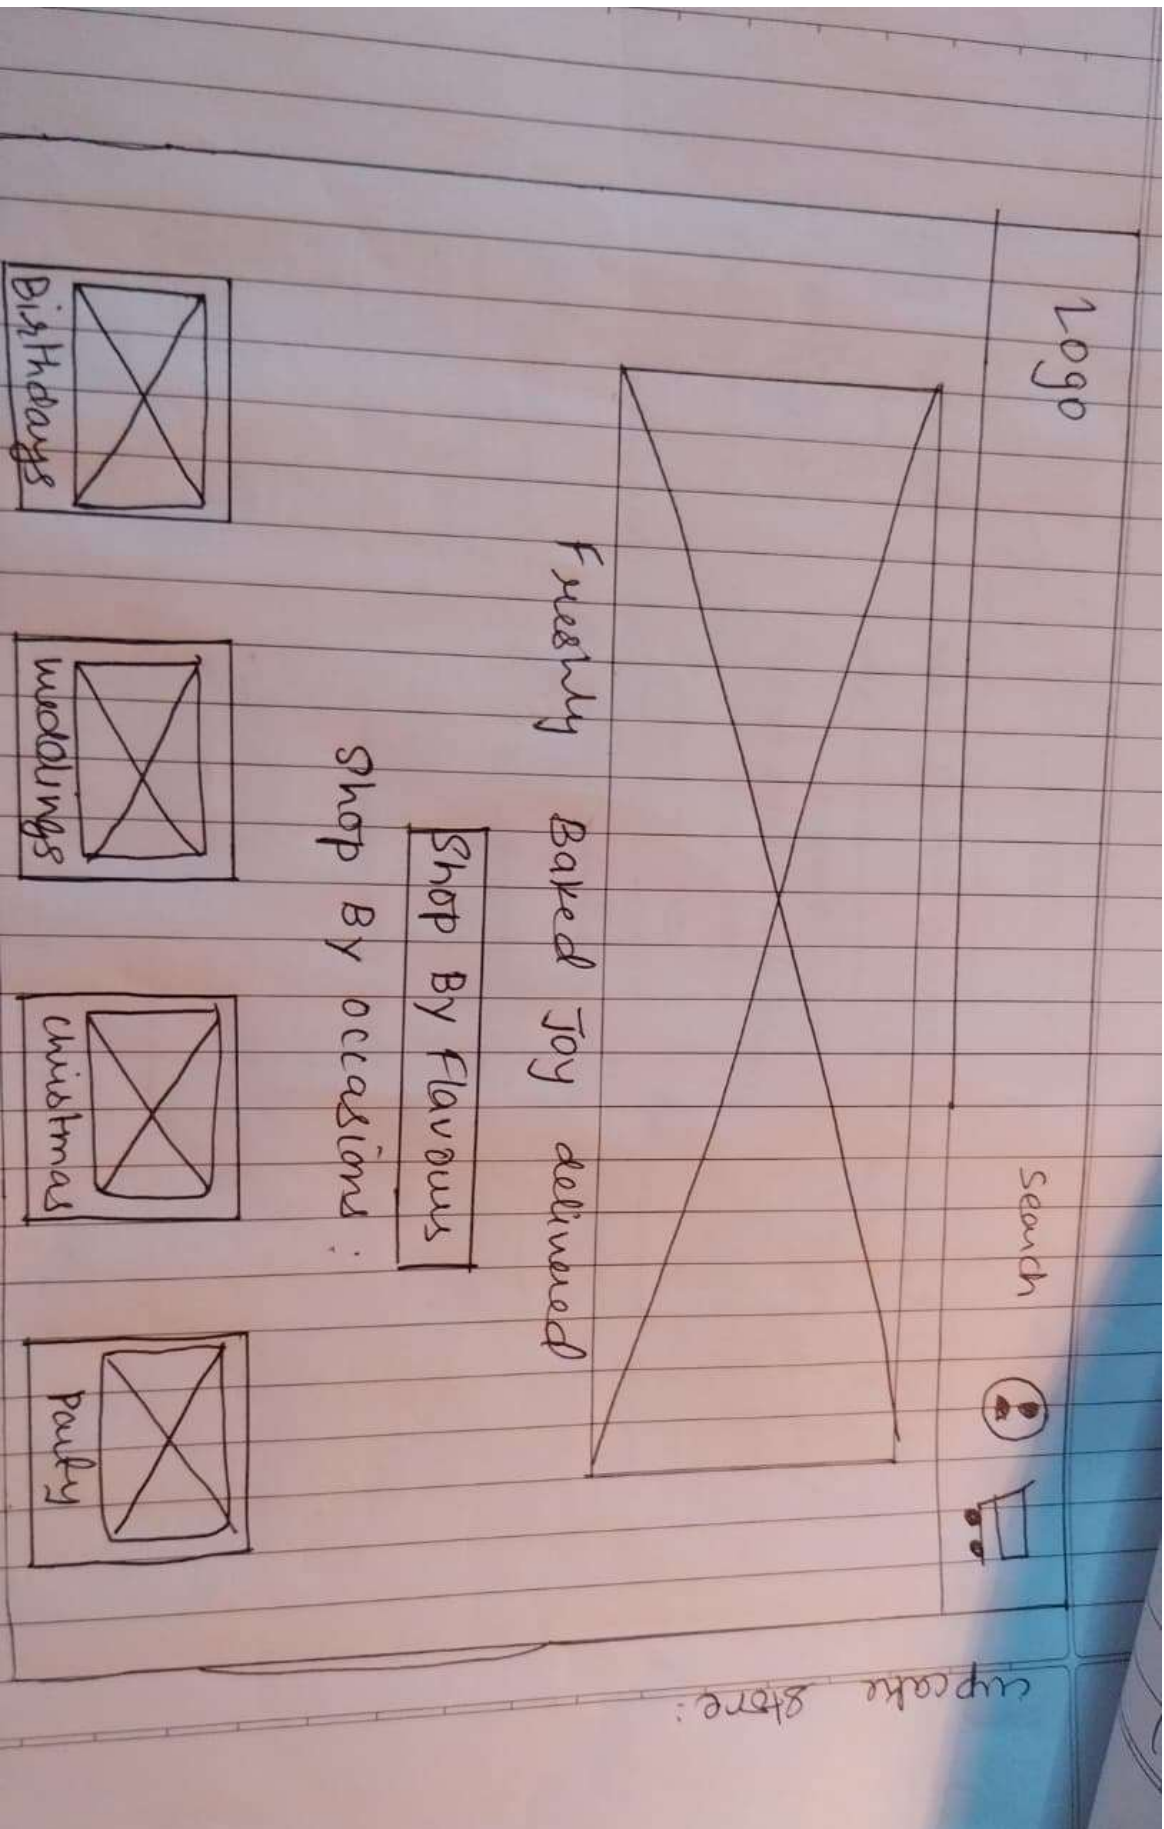

Date of Performance:

Date of Submission:

Name of Instructor: PROF. Vishakha Chaudhari

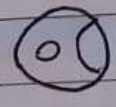

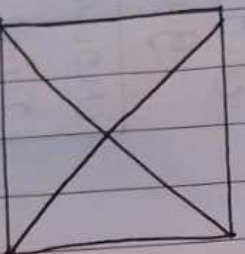

EXPERIMENT 6

Aim : Rapid Prototyping: Create quick, low-fidelity versions of solutions. Use materials like paper, cardboard, and markers to build a prototype of their solution within 30 minutes. The focus is on speed and functionality, not aesthetics.

Exercise 1:

Exercise - 1:

Hospital Logo	Daily appointment	Manual log
 • Patient Log • central queue • Assignment • ward dashboard • Staff scheduler	 Name Estimated wait hrs: _____  Name: _____ wait timer: _____	Treatment Status     Real time history • urgent update: • x-ray machine down • wait = +1 hr. • staff change B-dept.
